

TIGER 2,5

Fully extended retractable fall arrest of 2.5m. It stands out for its lightness and speed of blocking. Its energy absorber reduces the impact force below 6kN.

It includes a fall indicator, that in case of a fall, the green indicator turns red indicating the fall and its mandatory inspection.

Norm	EN 360
Maximum length	2,5m
Device's length	60 cm
Weight	1,43 kg
Resistance	23 kN
Maximum load	140 kg
Fall indicator	Yes
Horizontal use	No
Stopping distance	90 cm (including absorber)
Swivel connector opening	20mm
Lifetime (years)	10 of use + 1 of storage

Tape	
Webbing	Polyester
Thread	Polyester
Width	5 cm
Thickness	1,33 cm
